# Creating a Vanilla AutoCAD setup

1. Locate your standard AutoCAD Icon on your desktop

2. Right mouse click on your AutoCAD icon select Properties from the pop up menu.

3. In the Properties dialog go to the Shortcut Tab

4. Go to the end of the Target line, after the double quotes leave a space and type in /p "ACAD".

5. The ACAD is an arbitrary name for an AutoCAD profile.

6. Click Apply and then OK

7. When you start AutoCAD you will be prompted to allow the creation of the ACAD profile, answer Yes.
